Profile

I am a creative and detail-oriented front-end developer with experience building and maintaining responsive websites. I am proficient in **HTML**, **CSS**, **JavaScript**, and **React**, along with modern libraries and frameworks.

I am driven by a passion for creating exceptional user experiences. My strong design background and proficiency in tools like **Adobe Photoshop** and **Figma** enable me to seamlessly integrate aesthetics with functionality.

Colleagues and clients consistently praise my reliability, strong work ethic, and ability to deliver projects effectively. I am committed to delivering exceptional results that not only meet but exceed the highest standards in web design, user experience, and overall performance

---

Skills

Languages & Frameworks: HTML, CSS, JavaScript, TypeScript, React.js, Next.js, Vue.js, React Native.

Styling Libraries: Sass, Bootstrap, Tailwind CSS, Material UI, Styled Components, NativeWind, Ant Design, ShadCN

Tools: Firebase, Git, GitHub, Figma, Adobe Photoshop, Jest, React Testing Library, Redux, Context API, Pinia, Google Cloud Platform, Vercel, Storybook, React Query

Additional Skills: Responsive Design, SEO, Clear Communication, Organization, Problem-solving, Attention to Detail, Adaptability

Experience

Techinnover- Lagos, Nigeria

Front End Developer

Remote

March 2025 - Present

- I engineered a Progressive Web App (PWA) solution for a product alongside 2 developers after the native app's App Store rejection, implementing 20+ screens for cross-platform accessibility and seamless updates.
- I developed 15+ complex user flows, including dual-layer verification and secure transaction systems with BVN verification to eliminate fraud risk for user-to-user transfers and withdrawals.
- I implemented platform-specific features, such as iOS installation prompts that increased PWA adoption by 40% among iPhone users, and integrated geolocation to restrict regional access and personalize ad targeting.
- I architected a social ecosystem featuring tribes, content interaction, and a rewards system ("shekels"), creating monetization pathways connecting advertisers and users.
- I maintained legacy code for multiple products and collaborated with cross-functional teams and stakeholders across projects, providing technical insights that influenced product roadmaps and ensured alignment between engineering and business goals.

Vinhood - Milan, Italy

Front End Developer

Remote

March 2023 - April 2024

- I created 20+ dynamic, visually appealing features using React.js, ensuring responsive and engaging user interfaces that significantly improved user satisfaction, as evidenced by the migration of the V2 design to clients in 5+ countries. This effort also achieved 98% responsive design compliance across devices.
- I developed numerous reusable components and application screens, optimizing them for peak performance, resulting in a 35% reduction in load time for key pages across various devices and

browsers

- I collaborated closely with a cross-functional team of developers and UI/UX designers to create a new design system and redesign the product, leading to the successful launch of V2 across 5+ countries, which effectively transformed the application for users with a 30% reduction in design inconsistencies

- I actively participated in code reviews and committed to maintaining high coding standards and best practices, contributing to significant improvements in code quality and reduced bug reports during my tenure

Hotels.ng (HNG) - Lagos, Nigeria

Front End Developer

Remote

October 2022 - December 2022

- I translated designs and wireframes into high-quality, functional code using React.js and related technologies, delivering 10+ key features with 95% design-to-implementation accuracy and ensuring a seamless user experience
- I debugged and resolved 30+ front-end issues, enhancing application stability and achieving an improvement in page load performance and overall user satisfaction.
- I worked with version control systems to maintain codebase integrity, manage successful merges, and foster effective collaboration within the development team
- I successfully collaborated with a team of 8 developers, 3 project managers, 5 designers, and some backend developers to build and deploy 'Catchup,' a live application that helps people schedule events with friends and family, receiving positive feedback for its performance and user experience

Fiverr

Freelance Developer & Designer

December 2021 - February 2022

- I developed and designed custom solutions for a diverse range of clients, including websites, applications, and digital assets.
- I ensured project stability and fostered effective teamwork through

diligent version control practices.

- I conducted thorough debugging and performance optimizations to improve application reliability and efficiency.
- I collaborated with clients to understand their needs, provided regular updates, and ensured the timely delivery of high-quality work.

Printek Graphics Limited - Nigeria

Graphic Designer

December 2017 - February 2018, November 2021 - January 2022

- I managed client proposals and developed engaging concepts, graphics, and layouts, tailoring solutions to meet client needs.
- I liaised with external printers to ensure high-quality production and timely delivery, maintaining project standards and deadlines.
- During my time at the company, I boosted client transactions by an average of 25% through effective design solutions and strategic project management.

Education

Obafemi Awolowo University

BSc. Computer Science and Engineering

September 2018 - December 2023

Relevant Coursework: Operating Systems, Databases, Website Design, Algorithms, Computer Architecture, Calculus.

Activities: Google Developer Student Community.

Responsive Web Design

Free Code Camp

April 2020 - June 2020

Interests

- Reading Books
- Animations
- Digital Art
- Music (including playing several musical instruments such as the piano, guitar, and more.)
- Traveling

Languages

- **English**: Professional Proficiency
- **French**: Basic Knowledge
